Curriculum Vitae

huymaeco@gmail.com | huylvu.github.io | Updated: June 2026

Target role: Research Associate – Environmental Vulnerability, Governance, and Public Policy

RESEARCH PROFILE

Applied economics researcher with more than two years of experience in policy research, household and firm survey preparation, fieldwork-facing data systems, environmental and climate-related analysis, and academic writing. My recent work has covered Typhoon Yagi's macroeconomic impact in Viet Nam, green circular economy survey design, disability and household welfare surveys, agricultural trade and food-safety baseline research, and Vietnamese policy-facing reports for UNDP, USAID/CRS, ADB, the World Bank, and Economics for Health. Although I do not yet hold a Master's degree, I bring directly relevant research experience: two peer-reviewed journal publications, multi-round survey and data-quality work, strong Vietnamese/English research communication, and practical skills in Stata, R, QGIS, Python, and $\LaTeX$.

EDUCATION

B.A. in International Economics

2024

Foreign Trade University (FTU)

GPA: 3.6/4 Thesis score: 9.6/10 Highest Thesis Score

RELEVANT EXPERIENCE

Research Assistant

Mar. 2024 – May 2026

Development and Policies Research Center (DEPOCEN)

- Supported applied economics and policy research across household, firm, administrative, geospatial, and policy datasets, with responsibilities in data cleaning, coding, validation, documentation, descriptive analysis, and report preparation.
- Led the Viet Nam Multi-Sector Assessment of the Typhoon Yagi Macroeconomic Impact for UNDP in 2024, contributing to research design, analytical coordination, evidence synthesis, and policy-facing outputs after a major climate disaster.
- Contributed to multi-round disability and household welfare research for CRS/USAID, including data preparation, quality checking, documentation, and evidence synthesis across repeated survey rounds.
- Supported the KOICA Green Circular Economy baseline/inception work, including questionnaire structure, sampling logic, livelihood screening, skip-pattern review, and implementation-oriented survey documentation.
- Contributed to LINC/TAFSE baseline work on agricultural trade and food safety, including sampling, firm screening, survey preparation, workbook augmentation, and taxonomy cleaning for fieldwork and baseline implementation.
- Worked with climate and environmental indicators including temperature, rainfall, night-time lights, CO₂, greenhouse gas emissions, PM_{2.5}, shapefiles, and spatial boundaries for applied policy research.
- Prepared statistical tables, figures, analytical notes, policy-facing reports, concept notes, and stakeholder materials for UNDP, the World Bank, ADB, USAID/CRS, Economics for Health, and other partners.

Coordinator

Oct. 2023 – Oct. 2024

AVSE Global

- Coordinated academic and policy events involving researchers, practitioners, and Vietnamese experts abroad, including logistics, communications, documentation, and stakeholder follow-up.
- Contributed to the Comprehensive Development Strategy of the Saigon River Corridor in Ho Chi Minh City, supporting research communication and policy-oriented project coordination.

Collaborator

Oct. 2023 – Jan. 2024

Mekong Development Research Institute (MDRI)

- Supported a project on weather insurance for agriculture with RWI – Leibniz Institute for Economic Research, working with materials related to agricultural risk, weather exposure, and household-level research design.

Research Intern

Jun. 2023 – Oct. 2023

Vietnam Institute for Economics and Policy Research (VEPR)

- Assisted with economic research, literature review, data work, quantitative analysis, and policy-oriented writing.

SELECTED PROJECT FIT

Environmental vulnerability, climate shocks, and governance

- Typhoon Yagi macroeconomic impact assessment – UNDP:** led analytical coordination for a multi-sector assessment after Typhoon Yagi, strengthening my fit for research on disaster exposure, household and regional vulnerability, and climate-policy response in Viet Nam.
- KOICA Green Circular Economy baseline:** supported household questionnaire and sampling logic, including livelihood screening, field implementation constraints, and survey documentation relevant to environmental and local-development re-

search.

- **Weather insurance for agriculture – MDRI/RWI:** worked with project materials related to weather exposure, agricultural risk, and household-level research design.

Survey implementation, data quality, and fieldwork support

- **CRS/USAID Disability Project:** supported five rounds of survey-related research work, including data preparation and quality checks across repeated rounds.
- **LINC/TAFSE baseline – agricultural trade and food safety:** supported sampling, firm screening, survey preparation, and taxonomy cleaning for baseline implementation.
- **Tobacco Price Survey – Economics for Health:** contributed to survey-related data and policy research on price and affordability in Viet Nam.

Policy research and Vietnamese document context

- **World Bank open data portals in Viet Nam:** contributed to policy-facing research on Vietnamese public data systems and institutional implementation.
- **ADB access to finance for SMEs in Viet Nam:** supported research and analysis for a development-policy project involving Vietnamese firms and policy context.
- Fluent in Vietnamese and experienced in reading, synthesizing, and translating Vietnamese and English research/policy materials.

RESEARCH

PUBLICATIONS

- [1] “Measuring the Impact of COVID-19 and Government Policy Responses on Trade Flow: The Case of ASEAN Countries” (with Vy Tuong Phan and Viet Quoc Nguyen). *Journal of Economics and Development*, 27(3): 246–263, September 2025.
- [2] “Firm performance and industrial accumulation: The role of Industrial Parks” (with Tham Thi Hong Do and Viet Quoc Nguyen). *Thailand and The World Economy*, 44(1): 216–233, January 2026.

BOOK CHAPTERS / TRANSLATIONS

- [1] “A Practical Guide: Trade Policy Analysis” (Vietnamese translation from *A Practical Guide to Trade Policy Analysis*).
- [2] “Tung buoc nhap mon Nghien cuu dinh luong trong Khoa hoc xa hoi” (Published). Link.

METHODS & TECHNICAL SKILLS

Survey and fieldwork support: sampling logic, questionnaire review, livelihood screening, skip-pattern review, fieldwork documentation, data quality checks, repeated-round survey data preparation.

Quantitative methods: descriptive statistics, group comparisons, subgroup analysis, regression inputs, indicator construction, robustness and sensitivity checks, data validation, reproducible analytical workflows.

Qualitative and policy research: literature review, annotated bibliographies, policy-document synthesis, Vietnamese-language policy context, thematic synthesis, academic and policy-facing writing.

Software: Stata, R, QGIS, Python, $\LaTeX$, Excel, Word, Git/version control.

Geospatial and environmental data: shapefiles, spatial joins, administrative boundaries, satellite-derived indicators, temperature, rainfall, night-time lights, CO₂, greenhouse gas emissions, PM_{2.5}.

Languages: Vietnamese (native); English (IELTS 7.0, issued 2026).

GRANTS & AWARDS

Third Prize in Student Science Research Competition, Vietnam	2023
First Prize in Student Science Research Competition, Foreign Trade University	2023
Economic Field of Euréka Science Prize, Vietnam	2023

CONFERENCE, SERVICE & TEACHING

Conference proceedings: Vietnam Economist Annual Meeting (2022, 2023, 2024); Vietnam Symposium in Supply Chain Management (2023, 2024); WTO-Chair International Conference (2022, 2023).

Referee: *Thunderbird International Business Review*; *Managerial and Decision Economics*.

Teaching Assistant, Impact Evaluation, Foreign Trade University 2023–2024
