RESEARCH & TECHNICAL PROFILE

Research Assistant with experience in applied economics, policy research, geospatial analysis, and research programming. I have worked with administrative, survey, GIS, satellite-derived, and policy-related datasets, including shapefiles, temperature, rainfall, night-time lights, CO2, greenhouse gas emissions, and PM2.5 indicators. My work focuses on translating research questions into analytical datasets, validating inputs, documenting assumptions, and producing policy-facing outputs. I am particularly interested in energy systems, climate-related data, scientific computing, and reproducible analytical workflows for decision-relevant research.

EDUCATION

B.A. in International Economics

2024

Foreign Trade University (FTU)

GPA: 3.6/4 Thesis score: 9.6/10 Highest Thesis Score

EMPLOYMENT

Research Assistant

Mar. 2024 – May 2026

Development and Policies Research Center (DEPOCEN)

- Built and cleaned multi-source research datasets from administrative, survey, geospatial, and satellite-derived sources, with validation checks and documentation for reproducibility.
- Worked with climate and environmental indicators, including temperature, rainfall, night-time lights, CO2, greenhouse gas emissions, and PM2.5, for applied policy research.
- Translated research questions into analytical datasets, variable definitions, regression inputs, summary statistics, and policy-facing tables and figures.
- Supported data analysis, model inputs, documentation, and quality checks across projects involving household welfare, firms, trade, disability, tobacco taxation, open data, and climate-related shocks.
- Led the Viet Nam Multi-Sector Assessment of the Typhoon Yagi Macroeconomic Impact for UNDP in 2024, coordinating analytical steps and research outputs.
- Contributed to concept notes, technical reports, stakeholder presentations, and policy-facing deliverables for UNDP, the World Bank, ADB, USAID, CRS, and Economics for Health.

Coordinator

Oct. 2023 – Oct. 2024

AVSE Global

- Coordinated academic and policy events involving researchers, practitioners, and Vietnamese experts abroad.
- Supported project communication, event documentation, and stakeholder coordination for research and development initiatives.
- Contributed to the Comprehensive Development Strategy of the Saigon River Corridor in Ho Chi Minh City.

Collaborator

Oct. 2023 – Jan. 2024

Mekong Development Research Institute (MDRI)

- Supported research activities for a project on weather insurance for agriculture with RWI - Leibniz Institute for Economic Research.
- Worked with project materials related to agricultural risk, weather exposure, and household-level research design.

Research Intern

Jun. 2023 – Oct. 2023

Vietnam Institute for Economics and Policy Research (VEPR)

- Assisted with economic research, literature review, data work, and policy-oriented writing.
- Supported quantitative research tasks and documentation for applied economics projects.

SELECTED TECHNICAL PROJECT

Vietnam Grid Atlas

huylvu.github.io/other/energy-checking

- Recently developed a map-first prototype inspired by international energy-system atlas examples, with the aim of adapting similar tools to Vietnam's national context.
- Combined power-system and geospatial data into an interactive public-facing interface for exploring Vietnam's energy in-

frastructure.

- Designed the project as a foundation for adding Vietnam-specific layers, contextual information, and analytical features relevant to energy-transition discussions.
- Used the project to explore how energy data, GIS, and research communication can make technical infrastructure information more accessible.

SELECTED RESEARCH PROJECTS

Development and Policies Research Center (DEPOCEN)

- Team Member, Trade efficiency and food safety for agricultural and perishable goods – LINC 2026
- Team Member, Disability Project (5 rounds) – CRS, USAID 2024–2026
- Team Member, Tobacco Price Survey (round 1) – Economics for Health 2025
- Team Leader, Viet Nam Multi-Sector Assessment of the Typhoon Yagi Macroeconomic Impact – UNDP 2024
- Team Member, Evaluating open data portals in Vietnam – World Bank 2024
- Team Member, Role of Access to Finance in SME Development in Viet Nam – ADB 2024

Other affiliations

- Collaborator, Weather insurance for agriculture – RWI Leibniz Institute for Economic Research, MDRI 2023
- Team Member, Comprehensive Development Strategy of the Saigon River Corridor in Ho Chi Minh City, AVSE Global 2024
- Organizing Committee / Coordinator, Vietnam Global Leaders Forum and Vietnam Symposium in Supply Chain Management, AVSE Global 2023–2024

RESEARCH

PUBLICATIONS

- [1] “Measuring the Impact of COVID-19 and Government Policy Responses on Trade Flow: The Case of ASEAN Countries” (with Vy Tuong Phan and Viet Quoc Nguyen). *Journal of Economics and Development*, 27(3): 246–263, September 2025.
- [2] “Firm performance and industrial accumulation: The role of Industrial Parks” (with Tham Thi Hong Do and Viet Quoc Nguyen). *Thailand and The World Economy*, 44(1): 216–233, January 2026.

BOOK CHAPTERS / TRANSLATIONS

- [1] “A Practical Guide: Trade Policy Analysis” (Vietnamese translation from *A Practical Guide to Trade Policy Analysis*).
- [2] “Tung buoc nhap mon Nghien cuu dinh luong trong Khoa hoc xa hoi” (Published). [Link](#).

TECHNICAL SKILLS

Programming & data analysis: Python, R, STATA; data cleaning, data processing, exploratory analysis, validation checks, debugging, reproducible analysis.

Geospatial & remote-sensing data: QGIS, shapefiles, spatial joins, GIS data processing, satellite-derived data, temperature, rainfall, night-time lights, CO₂, greenhouse gas emissions, PM_{2.5}.

Research programming: Translating research questions into datasets, constructing model inputs, documenting analytical steps, preparing notebooks, technical documentation, reproducible research workflows.

Modelling & forecasting: Applied econometrics, scenario analysis, policy simulation, basic forecasting workflows, model-input preparation, model validation, analytical reliability checks.

Scientific computing: Python/R-based research workflows; learning Julia for energy-modelling applications.

Project documentation & communication: Concept notes, technical reports, research proposals, policy briefs, stakeholder presentations, structured project documentation, progress communication.

Tools: Git/version control, $\LaTeX$, Excel, Word, AI-assisted coding workflows using Claude Code, Codex, and Antigravity.

LANGUAGES

Vietnamese: Native **English:** IELTS 7.0, issued 2026

GRANTS & AWARDS

- Third Prize in Student Science Research Competition, Vietnam** 2023
- First Prize in Student Science Research Competition, Foreign Trade University** 2023
- Economic Field of Eureka Science Prize, Vietnam** 2023

CONFERENCE PROCEEDINGS

- Vietnam Economist Annual Meeting (VEAM), 2022, 2023, 2024

- Vietnam Symposium in Supply Chain Management (VSSCM), 2023, 2024
- WTO-Chair International Conference, 2022, 2023

LEADERSHIP & ACTIVITIES

Referee: *Thunderbird International Business Review; Managerial and Decision Economics*

Teaching Assistant, Impact Evaluation

2023–2024

Foreign Trade University
